

Warranty, repair and field service for ABB Cooling Tower Motors

IPS is a certified repair partner with ABB for Permanent Magnet Cooling Tower Motors. IPS provides single-source repair services and our experience includes expertise on working with permanent magnet rotors and associated stators, bearings and parts for cooling tower motors and drives.

We offer in-shop repair, field service, distribution and managed asset storage. Our experience covers all types of motors and generators AC, DC, induction, synchronous, explosion-proof, permanent magnet and hermetic. IPS services for NEMA, Above NEMA and IEC motors, both vertical and horizontal orientation, are to the most demanding specifications, including IEEE and API.

COOLING TOWER INDUSTRIES

- ✓ HVAC
 - ▶ Universities
 - ▶ Hospitals
 - ▶ Conference Centers
 - ▶ Large office complexes
- ✓ PetroChem
- ✓ Steel
- ✓ Pulp & Paper
- ✓ Power Generation
- ✓ Food & Beverage

AUTHORIZED IPS LOCATIONS
